Plants shipped by freight are at buyer's risk.

Atlantic

Atlantic is a beautiful city of 5,500 people situated sixty miles east of Omaha and ninety miles west of Des Moines. We have two lines of railroad. The main line of the Rock Island east and west, with its branches north and south, with twenty-two passenger and express trains arriving and departing each day. Also the Atlantic Northern, with two mixed trains each way per day, running north to Elk Horn and Kimballton. We have but one express company, the American.
